12 in 1 Construction Toy Set

The POWERplus Junior line stands for exciting eco energy items, which are fun for children and teaches them that there are eco friendly ways to power products instead of batteries or mains power.

The Monkey is another exciting example of eco thinking from the POWERplus Junior range.

Create 12 different solar powered models; all in one set containing 230 pcs..
This set will stay attractive to children because they can build so many different models.
Learn how the solar energy energises the different models using hydraulic transmission.
