## Autovents

Fully automatic radiator de-aeration valves

Loved by landlords and homeowners

- no more manual venting
- keeps the radiators hot to the top
- no gas = reduced corrosion = extended component life
- avoids cost of tenants calling out services engineers just to purge radiators
- Save heating and energy costs by optimising radiator efficiency
- Radiator manufacturers now offering as optional extra

### Specification:

Operating pressure 16 bar @ 120 °C.  
Lifetime leakfree guarantee,  
5yr operating guarantee.
